

SPIRALIN', RIGHT
And now it's all right.
Well, you can tell by the way I use my legs.
Well, it's OK.
And you may spiral the plot.
You know, it's better
to see before we do.
Musical times, I'll live
to see before we do.
We can try to understand the
music, but we do it after
we hear it.

MORE THAN A SPIRAL
Oh, girl, I've known you very well
You got me working
On say you, even
I've got
part of everything I would due
and if I loose more than a spiral,
more than a spiral to me
suddenly you're in my life
More than a spiral to me
part of everything I think I would due
More than a spiral to me
let history repeat itself.
This is the only way that we should fly
Referring to myself
